

:: Methylmalonic acidemia

Diseases:

- ▶ Methylmalonic acidemia, vitamin B12 unresponsive
- ▶ Methylmalonic acidemia, vitamin B12 responsive

The British Inherited Metabolic Disease Group (BIMDG) has published on its website guidelines for the emergency management of patients with inherited metabolic disorders.

Here are the ones the management for an **Acute decompensation in children and adults with methylmalonic acidemia due to a deficiency of methylmalonyl coenzyme A mutase.**

- ▶ See [children BIMDG guidelines](#) (last reviewed in Feb 2012)
- ▶ See [adults BIMDG guidelines](#) (last reviewed in 2012)

Further Information: see the Orphanet Abstracts for the [vitamin B12 unresponsive methylmalonic acidemia](#) and the [vitamine B12 responsive methylmalonic acidemia](#).
